Profile

Driven second-year student looking for a summer internship in artificial intelligence.

Skilled in data analysis, problem solving.

Eager to apply knowledge and grow skills by working on real-world projects.

Education

Loughborough University (BSc) Computer Science and Mathematics

September 2023 - Expected Graduation June 2026

Achieved a First Class Honours in first-year Computer Science and Mathematics.

Comberton Sixth Form

September 2021 - June 2023

Maths (A), Further Maths (B), Computer Science (B), Chemistry (B)

Cambourne Village College

2017 - 2021

10 GCSEs, 1x9, 5x7s, including 9 in Maths and 7s in Computer Science, Sciences, and Statistics.

Experience

Obex Technologies - Software Development (Summer Intern)

July 2024

- Worked on technical tickets, diagnosing and resolving errors to maintain system functionality.
- Transferred database tables to improve data organization and streamline system performance.
- Fixed bugs on the live website, ensuring minimal disruption to user experience and enhancing site stability.

Skills

Programming Languages: Java, Python, JavaScript, HTML, CSS, PHP

Data Analysis: MATLAB, Matplotlib, NumPy

Database: SQL

Version Control: Git

Workflow Documentation: Mantis

Project Management: Aligned objectives, task prioritization, workload management, communication, and collaboration.

Mathematical Proficiency: Able to grasp and apply complex mathematical concepts in both theoretical and practical contexts.
